-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of group I, claims 1-6 in the reply filed on 01/31/2005 is acknowledged. It has been noted that claims 7-13 depend from claim 1, therefore, claims 7-13 do not stand in a combination/subcombination relationship. The restriction on claim 7-13 has been rescinded. Claims 7-13 are now rejoined with group I.
2. The traversal is on the grounds that group II, claims 14-16, does not have a utility by itself or in other combination. This is not found persuasive because evident claim 1 does not include a locking mechanism and evident claim 14 has a separate utility as a locking mechanism on a door. Claims 14 –16 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Sloan et al (4,680,817).

The Sloan et al reference discloses a bath tub comprising a unitary body having a front sidewall 38 with a predetermined height, a left sidewall 34 coextensive in height with the front sidewall 38, a rear sidewall having a height commensurate with the left

Art Unit: 3751

sidewall 34 height and a depth commensurate with an elevated seat 16, a floor 20 between the seat 16 and the front sidewall 38, and a right sidewall forming a door frame extending from adjacent the front sidewall 38 adjacent the seat 36; a shower head 46 connected to a flexible cord 50 extending from the upper extension of the left wall 34 and a water valve 52 proximate the elevated seat 16; a removable water-tight door 26 fitting the door frame; a drain hole 60 and stopper in the floor, and proximate the rear sidewall and seat 16; and an overflow/drain stopper element (col. 4, lines 28-32) positioned adjacent an uppermost height on the left sidewall and above the drain hole 60.

Regarding claim 7, the tub further includes a door locking mechanism 66.

Allowable Subject Matter

5. Claims 2-6 and 8-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Andersen, Gruidel et al, Houle et al, Sowder, Russell and Hanson references show bath tubs having seats and sidedoors.
